

# clinch it (for someone)

I'll pay your  
airfare!

OK, that clinches it.  
I'll come with you!

to make you decide to do  
something that you were  
already thinking about

- We'd talked about moving, and the burglary **clinched it (for us)**.
- When they said the job would involve travelling to Paris, that **clinched it (for her)**.
- The photos of the city have **clinched it (for me)**. I have to visit Prague.
