

In time vs On time

In time: **Soon enough** / before it is too late to be able to do something - (A tiempo / rechtzeitig)

I won't make it
in time to catch
the bus!!

On time: **Punctual** / not on time = late.

There is a scheduled time to begin an activity.

(Punctual / pünktlich)

If you are
not on time,
You are
late!
